

Dear Patient,

Welcome! It is our pleasure to have you as a part of Lower Lights Christian Health Center – to have you as both a patient receiving medical treatment and also as a partner in making this a better organization. It is our privilege to serve you. Our providers and staff want to serve you with the highest level of care. To help us do this we ask the following from you:

- 1. Bring the following to EVERY visit:
 - a. Proof of income
 - b. Photo ID
 - c. Insurance Card
 - d. All medications you are currently taking or a list that includes all medications (both from LLCHC providers and other providers you might see/have seen)

*This is important so we can accurately enter this into our EMR system and issue prescriptions electronically

- 2. Come prepared with your co-pay each visit. Co-pays are required for each provider services at LLCHC; i.e. separate co-pay is required for medical visit vs. counseling or psychiatric vs. dietitian.
- 3. Actively participate in your care by asking questions and following treatment plans.

Following these expectations will allow our staff to enhance the quality of care. Again we are excited and privileged to partner with you in your health care. We look forward to seeing you soon.

Sincerely,

Lower Lights Christian Health Center Providers and Staff

Controlled Substance Medications

Welcome to Lower Lights Christian Health Center!

We are a primary care health center and we evaluate and treat a large range of conditions. We perform a comprehensive assessment of all patients before deciding to continue or change prescription medications. Many medications commonly used to treat chronic pain and anxiety are highly regulated (called "controlled-substance prescriptions) and providers must follow specific regulations to be able to prescribe these medications safely because these medications pose additional risks to your health and to the community if prescribed incorrectly or not taken as recommended. Common control-substance medications include:

Opioid Pain Medications, including:

- Codeine products such as Tylenol #3 and #4
- Hydrocodone products such as Vicodin, Lortab, and Norco
- Oxycodone products such as Percocet, Roxicet, Tylox, and OxyContin
- Morphine products such as Roxanol, Kadian, and MSContin
- Methadone and fentanyl/Durgesic, among others
- Tramadol

Anxiety and Insomnia Medications, including:

• Benzodiazepines such as diazepam (Valium), lorazepam (Ativan), alprazolam (Xanax), clonazepam (Klonopin); also Ambien, Zolpidem, Restoril, among others

ADHD Medications, including:

• Ritalin and Adderall

If you have a history of requiring controlled-substance prescriptions, our health center team will perform an assessment of your case to determine if it is in your best interest and safe to continue to prescribe these medications before writing any prescriptions for these medications.

Before our providers will consider prescribing these medications, we will review your history, physical exam, medical records, pharmacy records, and test results. To expedite your evaluation, you must provide your medical and pharmacy records from previous providers.

Because controlled-substance medications are highly regulated, all providers have access to state records of controlledsubstance prescriptions filled. Sometimes we need to verify record details by talking with your pharmacist. Please provide the name and phone number of your pharmacy.

In order to help you obtain records from your previous doctors, we will provide you a Release of Information form to have your medical records sent to our office for review.

It is your responsibility to sign the release of records form.

Before you are eligible to receive any controlled-substance medications, our medical record must contain:

- 1. Medical records from your previous physicians documenting previous test and consults performed to evaluate the condition that is being treated with a controlled-substance medication.
- 2. Medical records from the physician who previously prescribed the controlled-substance medications.
- 3. Name and phone number of the pharmacy where you have most recently filled these prescriptions.
- 4. Results of laboratory tests as your physician deems appropriate for the type of medications you are taking.
- 5. If asked by your new provider, you must bring your most recent prescription bottles, including remaining pills or patches to your next health center appointment.
- 6. You must agree to the terms and conditions that allow our providers to safely prescribe these medications and monitor for side effects and complications by reading and signing the Controlled-Substance Medication Management Agreement.

You will not likely be prescribed controlled substances on the first several visits to the health center or as you see new providers at the health center, because our providers will need time to review records and test results and perform an assessment of your case. After the assessment is complete, our providers will determine whether it is in your best interest and is safe to prescribe scheduled medications. There is no guarantee that you will receive these medications.

We value your health and look forward to a productive doctor-patient relationship.

The LLCHC Provider Team

Privacy Practices – Patient Consent

I have read and understand the Privacy Practices given to me and give my permission for LLCHC to use my protected health information (PHI) for the following purposes:

Consent for treatment: I give my permission for LLCHC physicians and employee working under the direction of the physician to provide medical care for me or to the patient for which I am a legal guardian. This may include services and supplies related to my health and may include (but not limited to) preventive, diagnostic, therapeutic, maintenance, palliative care, counseling, assessment or review of physical or mental status/function, and the sale or dispensing of drugs, devices, equipment or other items required and in accordance with a prescription. This consent includes contact and discussion with other health care professionals. I understand that LLCHC participates in one or more Health Information Exchanges and may use this to search for and access health information to provide better quality care. I understand that by signing this form I agree that LLCHC, and other health care providers, may search for, access and share my health information.

Consent for release of information for payment/operations and assignment of benefits: I also agree to allow LLCHC to send my information to the identified insurance carrier(s) for any and all payment activities. I consent to assign all payments for services rendered. I understand that I am responsible for all co-payments, amounts applied to deductibles and other amounts that may be deemed my responsibility by payor sources, as required by my contract with my insurance plan and state regulations. It is my responsibility to obtain all information from my health plan about coverage for services and if I seek care outside of the contract I am responsible for all charges incurred. I understand that my information may also be used for any operational needs as described in the Notice of Privacy Practices.

Consent for the Privacy Practice Notice: I agree that during my registration process I had the chance to read the Privacy Practices Notice. I understand these terms may change and that at any time I may request a copy of these practices by phone or in writing. I understand I have the right to know how my information is used and can also restrict how my information is shared. LLCHC is not required to agree to my restrictions but if an agreement is met then LLCHC is bound to the agreement.

I understand that LLCHC may refuse to provide services if I do not agree to these conditions. I may revoke this consent in writing at any time, but LLCHC may then refuse to provide services. If I choose to revoke this consent, it will take effect once LLCHC receives it in writing.
